Klien Returns from the Samoan Islands.

STRANGLING A FREE PRESS.

The Story Briefly of the Situation in the Islands of Samea-German Impertinence.

San Francisco, February 16 -Steam ship Mariposa from Australia and the Samoa Islands arrived this morning. Among the passengers is John C. Klein, the American newspaper correspondent who has figured in Berlin dispatches as having led the natives in a recent battle with the Germans on the island and who claims to have witnessed the fight as non-combatant in his capacity as correspondent.

When martial law was declared on the island by the Sermans an attempt was made by the latter to seize Klein, but he was rescued by Americans and took passage on the Oceanic steamer, Mari-posa, for this port.

MARTIAL LAW PROCLAIMED.

When the Maraposa left, the Samoa Islands were still under martial law, and the German aggression had become very marked, and is claimed to have been directed against Americans as well as natives.

The Mariposa left the Samoa Islands February 1. On that date none of the American men-of-war ordered to go to the islands had arrived, and the Germans under the operation of mar-tial law were incomplete to control the island and had commenced to search all the vassels on Somoa waters. But after session some waters, but after sessions and English tourist, named Gulon, on the steam packett Richmond, Captain Hand of the English war ship Royalist order of theman released and prepared for action.

try.
Prior to this Cusack was fined \$100
for reprinting certain American newspaper press comments on the Samoan situation.

COPPERED WRONG.

Captain Fritz, German naval commander, on January 23, issued an order instructing all residents to turn over all guns or ammunition held by them, and the proclaimed right of search. Cap-tain Mulian, of the American man-ofwar Nipsic protested against the action stating that the American government had never recognized Tamasese and that no pover would allow them to sieze arms unless used against a friendly na

The German troops acting we the power in Apis, attempted to arrest Klein, but on advice of the United States consul he weat on board the Nipsic January 28. Captain Fritz made a demand on Captain Mullen to release Klein, that he might be tried before the German military tribune. Captain Mullen that war had not been declared by Germany. Laier, Captain Fritz once more changed his statement and told the American officer that war had been declared. for trial; and on February 1, he placed him on the Mariposa.

BROUGHT IN A MAIL BAG.

The steamship Mariposa brings first mail advises from the Samoan Islands passage of the Senate Panama resolusince Jenuary 2. The mariposa left the Island of Tutuila on February 1. At the time of the departure of the Mari-posa, the necessity for the presence of American men of-war ordered to the scene is claimed to have been urgent as the operations of Germans were di-rected more against American and Eng-lish residents than against Matavia and

his forces.

A formal declaration of war against King Matanfa was made by the German authorities on January 19 and martial law for the entire Island. On the same day the English subjects were seized and taken on board a German man ofwar. American and English subjects were also three timed with deportation and the English stamer was taken in charge by an armed boat from the Ger-

man war ship.
Instead of war being prosecuted against Mataafa and his followers, the Garmans neglected them almost en-tirely, and confined themselves to the operations against the American and

English subjects.

It was a put-up job from the start and engineered to make money, not only by the said ing-ome athletic club or coterie of scort foying man into offering a big purse for a sentinel, who informed him that fire was in progress in Mataafale.

He, with four marines, ran to the and was one of the first to arrive there, It was found that a resident German consulate, Dr. Knapp, was in the flames. In a few minutes the fire had communi cated to the German postoffice at the other end of the building and reaching across the street the flames attacked

across the street the flames attacked the German consulate.

A large force of saliors from the American and English men ei-war went ashore and fought the fire, while the force of German saliors came on abore with loaded rifles and bayonets fixed and did little to help extinguish the flames. A good deal of property was destroyed. While the fire was in progress Knapp declared that he thought the occurrence was entirely a noidental. Within five or six hours, however, he expressed the belief that the American and English residents of Apia were implicated in the matter.

WAR DECLARED.

On the afternoon of January 15 a boat belonging to ex-United States Vice-Consul E. L. Hamilton, manned

Vice-Consul E. L. Hamilton, manned by two natives, was seized by an armed boat from the German ship Adier, while in neutral waters of Apia harbor. The boat was afterwards released, and when an explanation was demanded by Consul Blacklock, Consul Knapp replied it was because the boat had not displayed any national flag.

The English merchant steamer Richmond arrived in Apia harbor shortly before dark on the 18th. At 1 o'clock on the morning of the 19th, the Richmond was boarded by an armed boat's crew from the Adler. The officer in charge informed the captain of the Richmond that war had been declared by Germany against Samoa, that the harbor had been blockaded and martial law declared. law declared.

Goods which arrived on Richmond for American merchants at Apia, the Germans would not permit to be landed unless taken to the German storehouse and passed upon by the German official.

The Samoa Times was suppressed on January 19 for stating that but for German support all Samoans would join Mataafa, and that unless Bismarck was deceived, he would not attempt important news from his government. HE WANTED TO KNOW.

Vice-Consul Blacklock addressed a letter to Consul Kusppe requesting him to explain in plain terms whether Germany had declared war against Samoa and also if martial law existed and after several hours the German Consul sent a reply saying:

BY IMPERIAL ORDINATION.

"By order of imperial German consul we have proclaimed martial law for Somos until further notice "

A Palse Declaration.

WASHINGTON, February 16. - The minority report of Representative Norwood, of Georgia, in opposition to the tion by the House, object to the resolution because it would be a take declars tion and wrong application of the Mouroe doctrine, because it is simed at a sister republic, and because it would permit the United States to a position impolitic and wholly untenable. The report closed with the suggestion that possibly there is more thrift than patriotism in the resolution.

Gould is Economizing.

St. Louis, February 15 - One of the most sweeping outs in expenses ever made by the Gould interest has just been accomplished. The method of economy applies to the Missouri Pacific, economy applies to the Missouri Pacific, Cotton Belt and the Iron Mouatain. Instead of having local trains follow through trains to pick up local business, through trains are compelled to do the work. It is estimated that the Missouri Pacific reduction in train service amounts to fully 2.800 miles per day, or a saving of \$40 000 per month.

HOUSE Washington, February 16. - Mr. M. -

Creary, of Kentucky, submitted the conference report on the diplom tie and consular appropriation bill. Agreed The committee on wave and means

reported a bill to reduce taxation and simplify the laws relating to internal revenue. The same committee reported a bill to reduce taxation and for other purposes.
Mr. Reed. of Maine, asked that the

report on this bill be read.

The Speaker stated that the bill was not before the House for consideration.

Mr. Beed—"Is there a report?"

Mr. Speaker—"There is a brief report."

The bill was referred to the commit-

tes of the whole.

PLAYING FOR POSISH.

The effect of the report of these to o measures is to place them upon the cal endar ahead of the internal revenue bill to be reported from the committe-on appropriations, and gives them the right of way unless friends of the Cowles bill can mutser sufficient force to set them aside.

The ways and means committee reported the bill amending section 2506 of the revised statutes, relating to the duty on lumber.

The committee on appropriations re-ported the Cowles bill amending the internal revenue laws. Referred to the committee of the whole, together with

a minority substitute.

The House went into committee of the whole on the postoffice appropriation bill.

UNDERPAID CLERKS. Pending the amendment for increasng the appropriation for the compensation of postoffice clerks by \$300,000;

sation of postoffice clerks by \$390,000; defeated by a vote of 86 to 87.

Mr. Helman, of Indiana offered an amendment providing for aggregate salaries of postoffice clerks, fixed by the new classification, shall not exceed the amount appropriated by the bill, \$655,000.

Mr. Kerr, of Iowa, moved to strike out the clause relative to assistant postmasters.

Pending the yote the committee rose and the House adjourned.

Washington, February 16 - Representative Cox, who offered successfully a series of instructions to the House conference on the Territorial bill looking to the immediate admission of South Dakota, has received letters from Fargo. Dakota, signed by Chairman Ryan of the Democratic Territorial committee thanking him for his effort on behalf of statemood for the Dakotas and other Territories, and saying that rightly or wrongly the impression has been created that the Democratic party is re ated that the Democratic party is responsible for deaying the people of Dakota their undoubted right to come into
the Union as two States, when they
possess all the qualifications. That the
people of Dakota are practically unanimous in favor of division and statehood. That it is useless to waste time
in taking another vote on division and
saktus for statehood at one and left he sking for statehood at once and let the Democratic party have the credit of giving it to us.

Some Reductions.

WASHINGTON, February 16 .- The report accompanying the tariff bill presented to the House this morning by Mr. Breckenridge of Kentucky, says: The aggregate reduction proposed is \$31,730,000; on tin plate, \$5,704,435; on woolen schedules, \$12,254,512; on tobacco, \$17,381,000.

McMillan's report, accompanying the tariff oill reported by him from the com-mittee on ways and means, says the bill is tendered in a spirit of compromise, and which was practically heretofore passed by the House with the chemical, cotton and most of the iron schedules stricken out.

In the majority report accompanying the Cowles bill, it is stated that the en-actment of the bill would reduce the estimated surplus for the fiscal year from \$53,432,511 to \$22,745,165.
